

CLIVEDEN CONSERVATION

**40 years of historic building
conservation and restoration.**

We have a wealth of experience in the sensitive and careful conservation, restoration and maintenance of historic buildings and the spaces they occupy.

Caring for educational buildings

A large proportion of our work is focussed on educational spaces – from the listed buildings that make up many of our nation's schools and colleges to the chapels and courtyards that play a key role in the daily routines of many educational settings.

We cover a range of disciplines

Stone Masonry
Brickwork
Plasterwork
Decorative Arts
Statuary

From cleaning and repairing the exterior of your building to specialist decorating and gilding. We can take care of all your conservation requirements.

FUTURE PROOFING HISTORIC SCHOOLS AND COLLEGES WITH CONSERVATION

Our skilled and experienced team carry out stone masonry and conservation, decorative plasterwork, timber repairs, painted surfaces and the cleaning and repair of historic floors and interiors. In addition, we specialise in sculpture conservation together with dismantling, moving and installation of works of art.

www.clivedenconservation.com

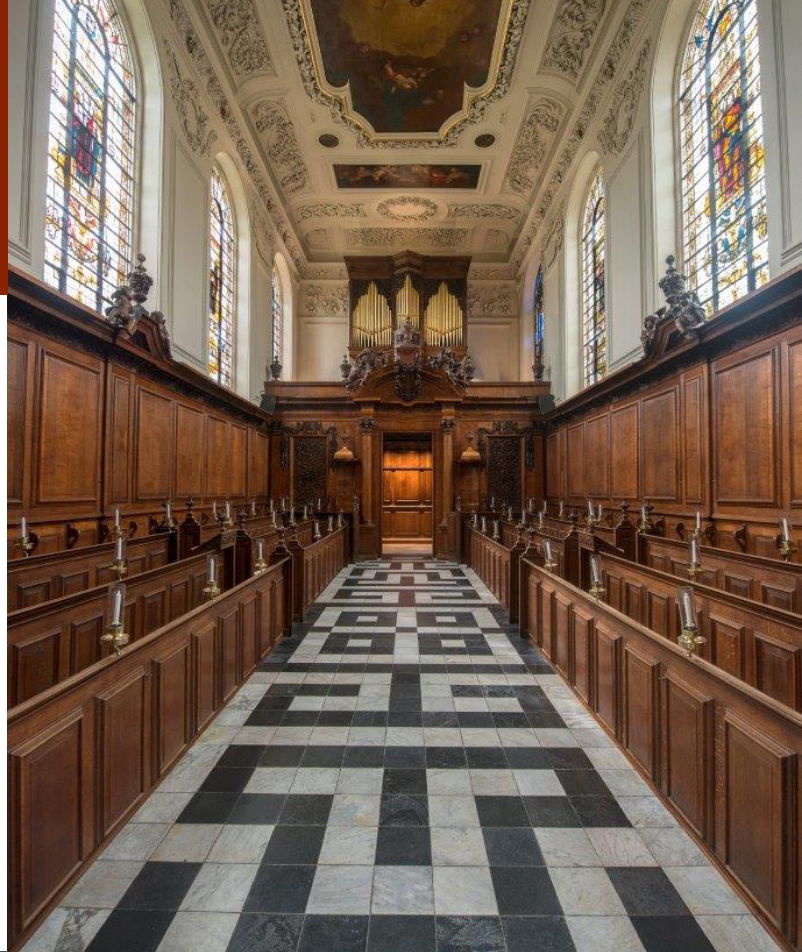

Established in 1980s to care for the National Trust's sculpture collection.

CLIVEDEN CONSERVATION

RESTORATION OF CHAPELS

Chapels hold their own special place in our portfolio, and we are proud to have worked on the restoration of several college chapels, from Radley College, Trinity and Corpus Christi colleges in Oxford, to the removal of altars and historic sculpture at St John's Seminary in Womersley.

We have also contributed to the restoration and development of some of the most impressive landscapes and gardens including Stowe in Buckinghamshire.

ADVISORY AND CONSULTANCY

We have 40 years' experience which informs our advisory and consultancy approaches to historic building conservation. We undertake condition surveys, investigations and analysis.

CONSIDERATE CONTRACTORS

Cliveden Conservation is considerate, careful, and sensitive to the ongoing daily routines of schools and colleges. Our strong management team and respectful workforce ensures that disturbance and noise are kept to a minimum.

BEST PRACTICE

Our comprehensive network of experienced conservators and consultants work with you and other key stakeholders to specify, scope and design the most appropriate conservation approach for the situation and budget.
